PROJECTS

Basketball Analytics Platform (Hooplogic):

- Engineered and developed the front-end for a responsive, user-centered service catering to prop bettors.
- Accelerated access to graphical data by implementing API, **D3.js**, React, and CSS, which resulted in a 40% improvement.

Employee Management Service (Worklink):

- Designed and implemented supply and demand sides for an employee management and task-delegating web application, improving overall business efficiency.
- Utilized React, HTML, CSS, and **JSON** to create a seamless user experience.

Autonomous Vehicle Delivery Service (WeGo):

- Excelled in software engineering and design using **Figma**, **Trello**, and **Selenium** in an agile scrum environment.
- Developed a supply and demand service for a Transportation-as-a-Service (TaaS) platform using **APIs**, HTML, JavaScript, and CSS.

ABOUT ME

Passionate and **detail-oriented** Front-End Developer with strong skills and experience in modern technologies, including React.js, TypeScript, Python, and a wide range of programming languages and frameworks. Proven ability to create engaging and responsive user interfaces by thinking outside the box to solve problems. Bilingual -- Spanish and English

EXPERIENCE

Web Development Intern

Cooledtured | Remote

Nov 2023 - Present

- Leveraging expertise in **React.js**, **Remix**, **TypeScript**, and **Tailwind CSS** to create dynamic and responsive web pages in **Shopify Hydrogen**, elevating user experience.
- Collaborating closely with experienced developers to maintain the app and shape the **UI/UX** design of the platform.
- Ensuring version control and streamlined collaboration using **Git** and **NPM**.

Lead Guest Relations Agent

St. Edward's University | Austin, TX

May 2023 - Aug 2023

- Optimized team workflow by **scheduling** and **coordinating** a team of 4 Guest Relations Agents, enhancing workflow efficiency.
- **Managed projects** and collaborated with the Assist. Director of Events and Conferences to seamlessly arrange for client arrivals.

Full-Stack Intern

Renzoe Box | Austin, TX

July 2022 - Jan 2023

- Developed reactive, user-friendly web application showcasing proficiency in **Python Flask** and **SQL** for back-end development.
- Implemented front-end using **HTML5**, React, and CSS in collaboration with seasoned developers encouraging **Agile Scrum** practices and a **fast-paced** work environment.
- Incorporated **Docker** to streamline deployment and enhance scalability, ensuring a seamless hosting environment.

SAP Intern I & II

ERP Chile Consulting | Santiago, Chile

June 2021 - July 2022

- **SAP S/4HANA:** Excelled SAP payroll processes, designed org. structures, functions, and positions for an international company.
- Leveraged my skills in **ABAP** to develop queries to ensure accurate and timely access to data.
- Created and **managed** personnel data, handling various infotypes for international enterprise systems.
