- **Languages:** Spanish (native), English (mastery).

PROJECTS

- **Basketball Analytics Platform (Hooplogic)**
  - Engineered and developed the front-end for a responsive, user-centered service catering to prop bettors, implementing graphical data with API and **D3.js.**
  - Accelerated access to graphical data by creating multi-page web app using React and CSS which resulted in a 40% improvement.
- **Employee Management Service (Worklink)**
  - Engineered web application for managers and employees to create, delegate, and complete tasks.
  - Designed and implemented multiple pages using React, HTML, CSS, and **JSON** which included supply and demand sides.
- **Autonomous Vehicle Delivery Service (WeGo)**
  - Developed a supply and demand service for a Transportation-as-a-Service platform using APIs, HTML, JavaScript, and CSS to create user-centered web application.
  - Excelled in software engineering and design using **Figma**, **Trello**, and **Selenium** in an agile scrum environment where **CI/CD** was key.

PROFESSIONAL EXPERIENCE

Web Development Intern | Austin, TX

Cooledtured | Nov 2023 - March 2023

- Leveraged expertise in **React.js**, **GraphQL**, **TypeScript**, and **Tailwind CSS** to create dynamic, responsive components and pages for **Shopify Hydrogen** e-commerce, elevating UX.
- Collaborated closely with experienced developers to maintain the app and shape the **UI/UX** design of the platform.
- Ensured version control and streamlined collaboration using **Git** and **npm**.

Lead Guest Relations Agent | Austin, TX

St. Edward's University | May 2023 - Aug 2023

- Optimized team workflow by **scheduling** and **coordinating** a team of 4 GRAs, enhancing workflow efficiency.
- **Managed projects** and collaborated with the Assist. Director of Events and Conferences to seamlessly arrange for client arrivals.

Full-stack Intern | Austin, TX

Renzoe Box | July 2022 - Jan 2023

- Developed reliable and stable web environment, showcasing proficiency in **Python Flask** and **SQL** for back-end development.
- Implemented responsive, user-friendly pages using **HTML5**, React, and CSS in collaboration with seasoned developers encouraging **Agile Scrum** practices and a **fast-paced** work environment.
- Incorporated **Docker** to streamline deployment and enhance scalability, ensuring a seamless hosting environment.

SAP Intern I & II | Santiago de Chile

ERP Chile Consulting | June 2021 - July 2022

- **SAP S/4HANA**: Excelled SAP payroll processes, designed org. structures, functions, and positions for an international company.
- Leveraged my skills in **ABAP** to develop queries to ensure accurate and timely access to data.
- Created and **managed** personnel data, handling various infotypes for international enterprise systems.
