Skills

Programming Languages: TypeScript, JavaScript, Python, SQL.

Technologies: React, Next.js, REST API, Django, Vitest, pytest, Stripe, Figma, Tailwind, Jira, ERP Systems, WebSockets.

Cloud & Infrastructure: AWS (Amplify, S3, Lambda), Docker.

Experience

Hunt Safe Technologies

August 2026 - Present • Austin, TX

Back-End Intern

- Designed and ran an AI-assisted audit of Hunt Safe's 152-endpoint Django/PostgreSQL REST API, a hunting club management SaaS, confirming defects in 68 of them, including 19 high-risk payment and safety endpoints.
- Scaled the backend's pytest suite by 547 tests, covering Stripe payments, billing, and SMS webhooks, and kept running documentation for the founding engineer.

Jeff Martin Auctioneers

May 2024 - August 2026 • Austin, TX

Front-End Developer

- Led the SDLC to replace a legacy ERP with an optimized Dockerized system built on TypeScript/Next.js with CRUD pages for 5 object types (Users, Staff, Inventory, Auctions, Locations), each with a reusable table for viewing, editing, and creating records, giving staff a single intuitive system to manage day-to-day operations.
- Communicated with 3 senior Back-End developers as the sole Front-End developer on REST API design decisions for 8 services behind a unified gateway, building 176 React components across 83 pages using hooks, context, and state management to integrate relational data into the UI, styled with Tailwind.
- Interviewed stakeholders and staff, including the CFO and CEO, to capture pain points and create Figma designs and tickets that, after sign-off, were implemented and iterated with users.
- Engineered and maintained a Vitest suite with 50+ tests covering core functions, validators, formatters, and components, run every time code was pushed to maintain a stable release cycle.
- Owned 2 accessibility epics in Jira to close app-wide WCAG gaps in an 8-epic team backlog spanning Front-End, Back-End, and DevOps, delivering an accessible application for staff of all technical skill levels.
- Created a WebSocket-powered auctioneer display and Dolby API livestream with real-time item updates, announcements, livestream controls, and two-way chat between clerk and customers.

Renzoe Box

June 2022 - January 2023 • Austin, TX

Full-Stack Intern

- Slashed post-release defects by 50% through code linting, Git-based code reviews, and documentation while delivering 8 sprint presentations to product owners and meeting 100% of sprint deadlines.
- Assisted with CRUD operations in a React/Flask/SQL environment and AWS cloud infrastructure (Amplify, S3, Lambda) under senior engineers for an AI-driven beauty-tech startup that analyzes faces to recommend makeup.

St. Edward's University

May 2022 - May 2024 • Austin, TX

Lead Guest Relations Agent

- Promoted to Lead Guest Relations Agent within one year, spearheading scheduling, training for 6+ new student staff, and project planning for a team of 4.
- Coordinated directly with the Assistant Director of Events to secure 15+ seamless third-party arrivals across 25+ event spaces and 200+ event setups, and communicated with conference leaders in English and Spanish while resolving conflicts on-call, resulting in \$400K+ in total revenue and 500+ events scheduled across two years.

Education

Bachelor of Science in Computer Science

May 2024 • Austin, TX

St. Edward's University • Minor in Business
